	Examiner Ella Colbert	Art Unit 3694	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1, 4-6, 8-11, 15, 17, 19-22, 24, 26, 28, and 35-40 are pending. Claims 1, 8, 11, 15, 17, 22, 26, and 35 have been amended in this communication filed 11/09/06 entered as Response After Non-Final Action and New or Additional Drawings.
2. The newly submitted drawings have overcome the drawing objection to figures 7 and 8 and is hereby withdrawn.
3. The prior 35 USC 112 second paragraph rejection for claims 1, 11, 17, 26, and 35 has been overcome by the amendment to the claims and is hereby withdrawn. However, there still remains 35 USC 112 second paragraph rejections for claims 1, 11, 17, 26, and 35 as set forth here below.

Claim Objections

4. Claims 1, 11, 15, 17, 26, and 35 are objected to because of the following informalities: The Examiner does not find "created or modified by the exception" in Applicant's Specification or Drawings. Applicant is respectfully requested to point out where this claim limitation is found. If the claim limitation is in the Specification, the claim would be better recited as "created and modified by the exception". Appropriate correction is required.

Drawings

5. The drawings are objected to because Drawing Figures 1, 3A, 3B, 4A, and 4B are slanted on the page and Drawing Figure 1 needs to have the shading removed. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement

Art Unit: 3694

drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

6. The Specification is objected to because Pages 4 and 7 are slanted on the page and not straight. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claims 1 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 17 use the term "enabling" which is not a positive recitation in the claim limitation. The claim limitation would be better

recited as "further having a tender recipient to request ... create and modify ..., ... that is created and modified by ... relates to the physical ...".

Claim Rejections - 35 USC § 112

9. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

10. Claims 1, 11, 15, 17, 26, and 35 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: Claim 1, the second claim limitation should recite "the at least ... provided for a physical characteristic of a complex multi-variable commodity, the ..., ...". Claims 11, 15, and 35 have a similar problem.

Claim 17 needs the elements "a physical characteristic of a complex multi-variable commodity" incorporated into one of the other claim limitations in claim 17.

Claim 26 has a similar problem.

Claims 4, 5, 8-11, 19-22, 24, 28, and 36-40 are rejected because of their dependency on a rejected base claim.

Conclusion

11. Once these amendments to the claims and issues above have been overcome, an updated extensive search performed and if no other issues remain and no new prior art is found the application will be issued.

Inquiries

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ella Colbert whose telephone number is 571-272-6741. The examiner can normally be reached on Monday, Tuesday, and Thursday, 5:30AM-3:00PM.
